### Safety Inspection Spring 2022 Results: Most improved laboratories

On behalf of the Chemical Engineering Student Safety Team (ChESST), thank you to all the laboratories for participating in our second safety audit. We were pleased to see that most laboratories have improved their safety standards since our initial safety audit last year.

Congratulations to the winners of the most improved laboratory:

**Dr. Megan Robertson**

**Dr. Jacinta Conrad**

**Dr. Mehmet Orman**

First place was awarded a \$100 gift card and safety officers that helped conduct inspections received a \$25 gift card (Hanny Ngo).

Thank you for the work you have done to improve the safety culture in your laboratory and the extra dedication toward a safe working environment.

Our next safety inspections will be during the first week of December 2022. More details to be disclosed in future newsletters.

### SAVE THE DATE! – November 3, 2022

We are planning a social event at the UH bowling alley with free food provided.

### WE ARE LOOKING FOR NEW OFFICERS!!!!

Safety officer or not, we are looking for students that would like to join our team to fill the following roles:

- Communications Officer
- Social Chair
- Website Designer
- Mental and Physical Health Subcommittee Chair

All are welcome to join our next officer meeting **THIS THURSDAY, August 18, at 2:00 PM** in the Chemical Engineering conference room

Please contact us at [UHChESST@gmail.com](mailto:UHChESST@gmail.com) for more information.

### Waste Handling Training

ChEEST is collaborating with the UH EHS department to provide waste handling training to those in the department that may be interested. We will have two sessions; please choose which is more convenient for your schedule

Tuesday 9/13 (1:00pm-2:00pm)

Wednesday 9/14 (1:00pm-2:00pm)

Details and how to sign up coming soon!
